PROFILE

I am a final-year student at the University of Johannesburg with a strong foundation in programming and a passion for software development. I am eager to join a prestigious graduate program to further advance my skills and knowledge. My goal is to contribute to the field by staying updated with the latest technologies and collaborating with industry professionals to create innovative software solutions.

EMPLOYMENT HISTORY

IT Technical Support Student Assistant, University of Johannesburg
Johannesburg

Mar 2023 — Present

Job Purpose:

Provided support and assistance to users and Team Leaders to ensure the efficient and effective operation of the microcomputer laboratory service at UJ.

Key Performance Areas

Installations:

- Installed computer hardware when computers needed replacement, ensuring compliance with
- supplier warranty.
- Completed asset control forms to maintain an updated asset register.
- Installed computer software to cater to user requirements.
- Configured desktop applications for optimal performance and user satisfaction.
- Installed and configured network printers in the laboratories, ensuring smooth service for users.
- Troubleshooted and reported on faulty computer hardware, printers, and audio-visual equipment,
- maintaining a high level of service.
- Upgraded and reset software applications to ensure continuous service availability.

Access Controlling and Security:

- Controlled access to and usage of computer laboratories.
- Performed locking and unlocking procedures for laboratories, ensuring security protocols were followed.

Customer Service and Student Support:

- Provided desktop hardware support to students, addressing their technical needs.
- Assisted students with basic desktop software usage and printing requirements.
- Offered basic support on the Blackboard application to enhance student experience.
